

**Your partner for brewing
& soft drink industry**

UNI TEC

Turnkey production solutions for the drink and food industry

UniTec, founded in 1997, is a Belgian company. We serve a growing number of customers in the brewing, wine, soft drink and food industries with innovating production units.

Worldwide, we have an established base of more than 500 units, which are running to the full satisfaction of our customers.

The know-how and experience of our engineers is your guarantee for the continuous improvement and development of our products and solutions.

Whether for the construction of complete production plants or the revamping of existing installations, if you are in the drink or food industry you can rely on UniTec and consider the job done.
